

Listening to the voices of people we support

Encouraging people to complete our new survey

We've launched a new and anonymous survey to understand how people feel about their support from Turning Point. What we learn from the "My Turning Point Experience" survey will help us make our services better.

The survey has just six multiple choice questions and only takes a few minutes to complete.

Scan the QR code to access the survey.

You can also download a version to facilitate completion with a person we support, and then add the details into the survey to submit.

Please help to get as many surveys completed as possible by Wednesday 14 June 2023.
